David is an experienced Delay Analyst with over 20 years' industry experience. He is a multi-disciplined planning engineer who has worked as a senior planning engineer and tender planner, on a variety of projects, across a range of sectors.

David's extensive project experience in delay claims includes the commercial building sector, water/utilities sector, petrochemical, renewable energy and nuclear.

His planning experience includes tender planning and project planning on major and small projects, as well as portfolio planning and delay analysis/forensic planning.

David is a graduate of the Diales Minerva training programme, gaining experience in relation to construction claims working on commissions for litigation, adjudication, mediation and dispute avoidance.

He has been appointed as an independent Expert Witness and has also provided support to an appointed Expert Witness. David has since progressed from a Senior Consultant to Associate Director within the business and has completed the Diales Expert Witness Development programme and undergone cross-examination training.

This expert has the following cross-examination experience:

- Successfully completed an external training course

This expert has recently been instructed by:

- Mayer Brown International LLP
- Pinsent Masons
