

## DAVID COYNE

### Quantum Expert

- Forensic Delay Analyst
- Chartered Engineer
- Chartered European Engineer
- Chartered Marine Engineer
- A specialist in mechanical and electrical quantum matters
- Extensive experience across the geotechnical and offshore renewables sector

### Recognised by

### Qualifications

Chartered Engineer (CEng)  
Chartered European Engineer,  
(EUR ENG)  
Chartered Marine Engineer  
(CMarEng)  
MSc Construction Law and  
Dispute Resolution  
MSc Geotechnical Engineering  
MEng Civil Engineering

### Memberships and Associations

President of AFDCI International  
Chapter; BGA; IMarEST; FEANI;  
UK Engineering Council; SCL  
Astra UK

### Contracts

FIDIC;JCT; NEC3; NEC4;  
Bespoke

### Sectors

Building; Energy; Infrastructure;  
Marine; Mining; Oil & Gas;  
Process and Industrial;  
Transportation

### Geographic experience

Africa  
Americas  
Asia Pacific  
Europe  
Middle East

David Coyne is an experienced Chartered Engineer, Project Manager and respected independent Delay Expert with over 10 years' experience. Mr Coyne specialises in utilising critical path method scheduling as the principal tool in managing complex construction projects/programmes.

He applies his project experience and technical knowledge to support clients as an independent delay expert witness in all dispute resolution forums. He also provides strategic advice to clients from an independent perspective.

David has worked as an engineer and project manager on a wide range of projects. As a result, he has acquired experience and responsibilities at all stages of the project lifecycle, through design, construction, commissioning, and certification. In addition, he was responsible for driving the efforts of multidisciplinary teams and subcontractors for clients across many regions, including France, the UK, Europe, the Americas, the Middle East, Asia, and Africa.

David also established himself as a leading technical advisor in geotechnical and offshore renewable engineering through his research work with Oxford, Cambridge, and Imperial universities in the UK.

David was recently requested to be part of the international committee drafting the third revision of the French Delay & Disruption Protocol. Furthermore, he became the president of the French Society of Construction Law (AFDCI).

### WWL says:

Who's Who Legal describes David as an "Arbitration Global Leader – Expert Witness" and a "Global Leader in Construction Quantum, Delay and Technical Consulting."

Client's comments include: *"David brings enormous clarity to complex technical discussions," ... "He strives to deliver high-quality work that is beyond reproach," ... "always rely on David to deliver the required input even under enormous time pressure".*
