Fernando has a strong background in planning, delay analysis and loss of productivity, project controls and contract management. He has extensive dispute resolution experience on construction and engineering projects having held various management positions in large international infrastructure projects.

Fernando provides expert services, including preparation of expert reports and acting as an Expert Witness in relation to delay and loss of productivity issues, and has extensive experience in FIDIC, NEC and ad hoc contracts.

He has been appointed as lead Expert Witness on multiple occasions under various rules of arbitration including ICC, CIMA and SCC, and has been cross-examined and provided oral testimony both in arbitration, and in front of a court of law.

Fernando has also been included in 2025 Construction Lexology Index (formerly Who's Who Legal).

This expert has the following cross-examination experience:

- International Arbitration
- Domestic Arbitration

This expert has recently been instructed by:

- Aitkulov & Partners
