Gary is a Chartered Quantity Surveyor with nearly 30 years' experience in the construction and engineering industry, involved in a wide range of sectors including highways; energy (offshore wind and power); marine; oil and gas; electrical engineering; civil engineering; petrochemical; rail and building.

Gary has specialised in disputes on valuations and claims, supporting clients in both dispute avoidance and dispute resolution proceedings including adjudication, arbitration, and TCC proceedings.

Gary has produced quantum expert reports as well as assisting the lead expert on a number of commissions including international arbitration proceedings. He has written reports providing opinion on the true value of works completed, losses encountered, including disruption, prolongation, and acceleration costs.

Gary is frequently involved with writing and delivering both presentations and training, in particular using his extensive experience with the NEC form of contracts.

This expert has the following cross-examination experience:

- Successfully completed external cross examination courses
