Jonathan is a Chartered Quantity Surveyor and has worked in the construction industry for over 30 years, 24 years in the UK with a further 10 years in the Middle East.

Jonathan has been appointed to provide expert determinations on construction projects, energy projects and oil and gas projects in the Sultanate of Oman and KSA.

He has extensive experience in arbitration in the role of lead assistant to quantum experts, and has experience in Adjudication in the UK as well as having provided assessments of quantum in UK litigation.

Jonathan is vastly experienced in working with UK forms of contract, such as NEC and JCT and international forms such as FIDIC.

Jonathan has substantial experience in the management of teams in the preparation of and rebuttal of claims in the UK and overseas, and the requisite experience in preparing and writing claims across numerous sectors.

This expert has the following cross-examination experience:

- Adjudication/Mediation
